PROGRAM: Publisher **John Tabor** had an opportunity to speak to the club in 1988 when he published the Portsmouth Press Herald. Now as publisher of the Portsmouth Herald he has several predictions for the Portsmouth/Kittery community:

Kittery will experience a population explosion due to the overflow of people from Portsmouth. Over the next 5 years we should start to see more businesses downtown, parking problems, waterfront condo, and a shortage of rents. Portsmouth is adding hundreds of jobs particularly in the software industry. Portsmouth will be a city with tall buildings due to business growth attracted to the airport and it's tax advantage. The Kittery Outlet Malls will expand to the Kittery Town Line. York will fail in its attempt to slow growth. Pease Tradeport will be offering over 2500 more jobs within the next 2½ years.

The floor was opened for questions.
